

Beyond the Call of Duty

2018 Many Hands Award Dr. Peggy Earnest

"Dr. Peggy Earnest is an outstanding speech therapist and a wonderful person.

She is Madison's speech therapist and goes above and beyond for her students. Her love goes beyond students and extends to the families as well. She has provided summer sign language classes for families, which we had so much fun doing and we learned so much.

She has published two books to raise money to help clients pay for speech therapy when insurance doesn't pay. Madison and Abigail had the privilege and honor of being in the book(s) and on the bookmarks. She sees the whole person and family and does whatever it takes to help them with speech and to be all they can be, raising the bar of excellence along the way.

We love you Peggy! You are a true example of giving your all and reaching for the stars."
