

Inspiring the Arts

2018 Many Hands Award

Lynn Damon

"Lynn Damon is an amazing photographic artist, and is so inspiring and so generous. She is very involved in her community and has given so much to those with special needs.

Her sister Jane had Down Syndrome and you can see Lynn light up when she talks about her. She has put on many exhibits to honor those with special needs and the special relationship they have with their families. We had the privilege and honor of being involved in two of the three recent projects Lynn put together; the Inspiring Father's exhibit and the Inspiring Siblings exhibit, where she captured amazing memories in photos and allowed families like us to share our stories to inspire and bring hope and light to others in similar situations.

Lynn has a wonderful gift and uses it to bless others, educate and share the love of families through photos that will carry through generation to generation, inspiring in ways we can only get a glimpse of in the short term. Lynn has such a big heart!

We love you Lynn."
