2018 Many Hands Award Dr. Minas Lialios

"When my baby, James, was first born, Dr. Lialios took him on as a patient. The pediatrician who I had used previously with my other two children did not welcome my new Baby Jamie when I brought him in for his first visit. I was extremely upset and did not know where to bring my son. I was referred to Dr. Lialios by a family member and he rolled out the red carpet for my son and our family. We stayed with him for 19 years until Jamie had to leave the practice because it was time for him to move to a doctor for adults. When I went to pick up Jamie's medical records, there was a letter to Jamie from Dr. Lialios."
